Give him a call, inspect his goods and work and become acquainted. We are glad to welcome them into our midst.

## Large Sums for Schools.

Superintendent of Public Instruction Regenstein last week made statements of the money that will be expended this year in the common schools of Kentucky, making a total of \$3,057,591.36. The sources from which this revenue is derived follows: Dog tax \$50,296.16, interest \$21,434.53, balance from last year \$1,996,677, state fund \$2,983,864. There are 745,966 school children, and the school fund is \$4 per capita on that number.

## Woman in Race For Congress.

For the first time in its history the Seventh District has a woman candidate for Congress.

Mrs. Frances E. Beauchamp on Saturday announced herself a candidate on a platform of anti-liquor anti-white slavery and anti-tobacco, but declares that between the tobacco trust and the grower she is for the latter.

She will make the race on the Prohibition ticket against Hon. J. Campbell, Democrat, and Hon. M. Rankin, Republican, and calls on the chivalrous men of the district to give her their support.

## It Wasn't.

The telephone call of a suite of apartments in a ladies' boarding house is 190. One young lady, a recent comer, answered the call and was astonished to hear a man's voice inquire hurriedly, "Is this one nine o'?" When she could catch her breath, the lady who was a very proper young lady indeed, replied, "I think not. Were we ever introduced?"

Dicks—Going as a tramp, eh?

## Getting It All Back Again.

A small boy was making his first visit to the country, and nothing escaped his eager eyes. He had seen the calves fed, and then watched with interest the process of milking. Finally he spoke: "So that's the way you do it; when they're little you put it in, and when they're big you take it out again."

## Little Waldo Suffers.

"It's disgusting," said Mrs. Waldo Beauchamp of Boston; "the makers of children's blocks never think of putting Greek letters on them; and there is my poor little Emerson simply dying of ennui for the want of a good fairy tale in words of moderately extensive syllabification."

## Amber Everywhere Admired.

The beauty and hardness of amber have long caused it to be esteemed by smokers. In Turkey as much as \$1,500 is often given for a single mouthpiece. Its value differs according to its tint and opacity. The most valuable is the opaque lemon colored. The rarest piece is a cube of amber belonging to the shah of Persia. It is supposed by the devout Moslems to have fallen from heaven in Mohammed's time.

## Health and Wealth.

There is a great difference between the two temporal blessings, health and wealth. Wealth is most envied, but least enjoyed; health is frequently enjoyed, but the least envied; and the superiority of the latter is still more obvious that the poorest man would not part with his health for money, but richest would gladly part with his money for health.

## STOCK, CROP AND FARM NOTES.

—Receipts of lambs and cattle by dealers a Carlisle have broken all records for that city and the local stock yards have proved of insufficient capacity. Lamb dealers, many of whom have made purchases at \$7 and \$8.50 per hundred, have been holding up their shipments owing to the condition of the markets, but are now rushing them in.

—A report from Nicholas county state that tobacco growers of that county seem more elated over the prospects for the 1910 crop than ever before this season. Growers expressed the opinion that there is now no doubt that but half a crop will be realized since the falling of the copious rains of the past few days. The report that the tobacco is growing faster than ever was known in the same length of time, and that only an early killing frost can prevent half a yield.

## Civil Service Examination.

An examination for the position of Fireman-Laborer will be held at the post office in this city September 17, 1910.

For application blanks and full information relative to the examination, qualifications, duties, salaries, etc., address Secretary Board of Civil Service Examiners, Postoffice City.

## Fighting Forest Fires.

Officials of the U. S. Department of Agriculture are of the opinion that 1910 will hold the record among many years for the severity of the losses from forest fires. The summer fires followed a spring season believed to have been the worst, certainly in the Lake States, known in a long time. Nor is it wise to assume that the danger is over when the fierce conflagrations which have called forth in the Mountain States the efforts of the three Federal Departments have been conquered. The forests will not be safe until the fall rains and snows have once more made a wet blanket of the dry forest floor. That the total losses of the year will run up to many millions of dollars is considered certain.

How such losses may be prevented is a matter of general public concern. To the National Forest timber burned must be added great amounts and private holdings besides the immense damage done to own, farm and other property. Railroads have suffered from the interruption of traffic as well as from direct losses.

Synonymous with Good Breeding.

A woman of good breeding never neglects her hands. If she is wise she will make frequent visits to some competent manicurist. The hands, the finger nails speak eloquently for or against one's character. Well cared for, properly manicured fingernails make you immune from criticism. Do not risk going into a drawing room, theatre, hotel, or any public place without having your nails manicured. This branch of our business receives special attention. We know the art of manicuring to a "T."
